1. Home page.

- When clicking "Start Designing Now," users are redirected to the design area without being prompted to log in or sign up. This feature should be restricted, allowing access only after the user has logged in or signed up.

- Please review the implementation of sessions and cookies to ensure proper user authentication.

- When I click *"Gave", "your", "Voting"* - it directs to *http://localhost:5173/voting* (Figure 1)

- Figure 1 - this portion should be displayed after the user login. Before that show some kind of advertisement or anything.

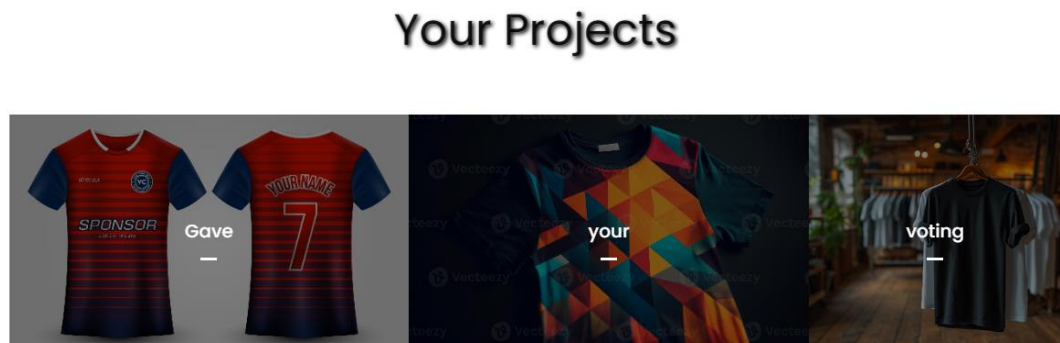

*Figure 1: should showcase the designs made by the logined user.*

- **How we work**

Figure 2: Please modify the text as shown below and update the icons to be relevant.

1) Design Creation

- Create designs using customization tools.

2) Community Voting

- Share voting link with community.

3) Finalize Design Based on Votes

- Select design based on votes.

4) Order Placement

- Members order and pay online.

5) Production and Delivery

- Produce and deliver final apparel.

-

- To add the review of our experiences can you change the content appropriate for review "http://localhost:5173/addrate"

-

*Figure 3: Page supposed to be as review.*

*Figure 4: Could you refine the UI of this page more appealing with **pagination***

- For the Q&A section I have given 10 questions and answers for the page. It would be great if you make a separate page for the Q&A.

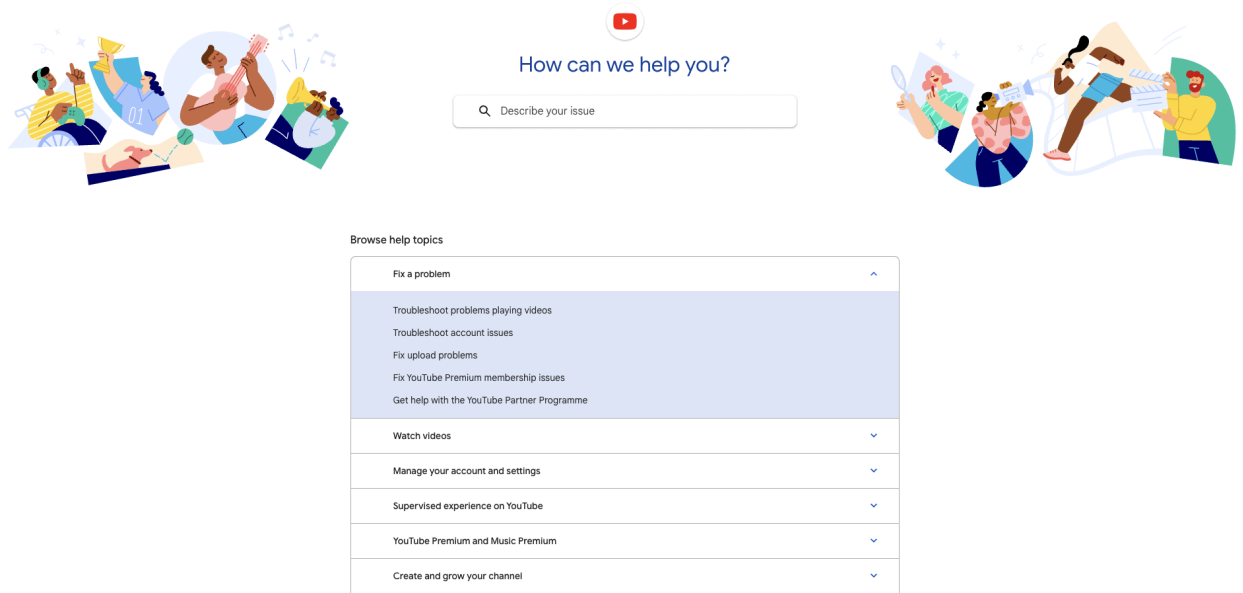

*Figure 5: This **sample** Q&A design would be simple and great.*

-

Figure 6: When user click this "Got any questions" button that Q&A page

should be redirected instead of Review page.

Q: What materials are used for the apparel?
A: We use high-quality fabrics such as cotton, wool, silk, and linen.

Q: Can I choose the type of fabric for my custom design?
A: Yes, you can select your preferred fabric for your custom apparel.

Q: How are the designs printed on the apparel?
A: After you submit your custom design, we assess its feasibility. If needed, we may adjust the design to ensure optimal printing quality. Once you confirm the revised design, we proceed with printing.

Q: Do you offer different packaging options?
A: No, we currently do not offer different packaging options.

Q: How can I be sure of the quality of the finished product?
A: We source our fabrics from reputable brands to ensure quality. You can also check our reviews and ratings on the "Rate and Review" page for customer feedback.

Q: What are the shipping options and delivery times?
A: Currently, we do not offer shipping options, but we plan to introduce them in the future. We ensure your orders are printed within 5 working days.

Q: Are there any additional costs for shipping or handling?
A: No, there are no additional costs for shipping or handling at this time.

Q: What payment methods do you accept?
A: We accept cash on delivery, online transfers, and payments directly through our website.

Q: Is my payment information secure on your platform?
A: Yes, all payment information on our platform is securely protected.

Q: What is your policy for returns, exchanges, or refunds?
A: If you need to make changes to your order, please do so during the order confirmation period. Unfortunately, once the confirmation period is over, we cannot make any changes. If there are any issues upon receiving your order, please record a video of the unboxing and contact us within two days for assistance.

- Alignment bugs in Home page:
  - As you can see the chatbot is not able to minimize as the navigation bar is in fixed position. Also the designs are overlapping with chatbot.

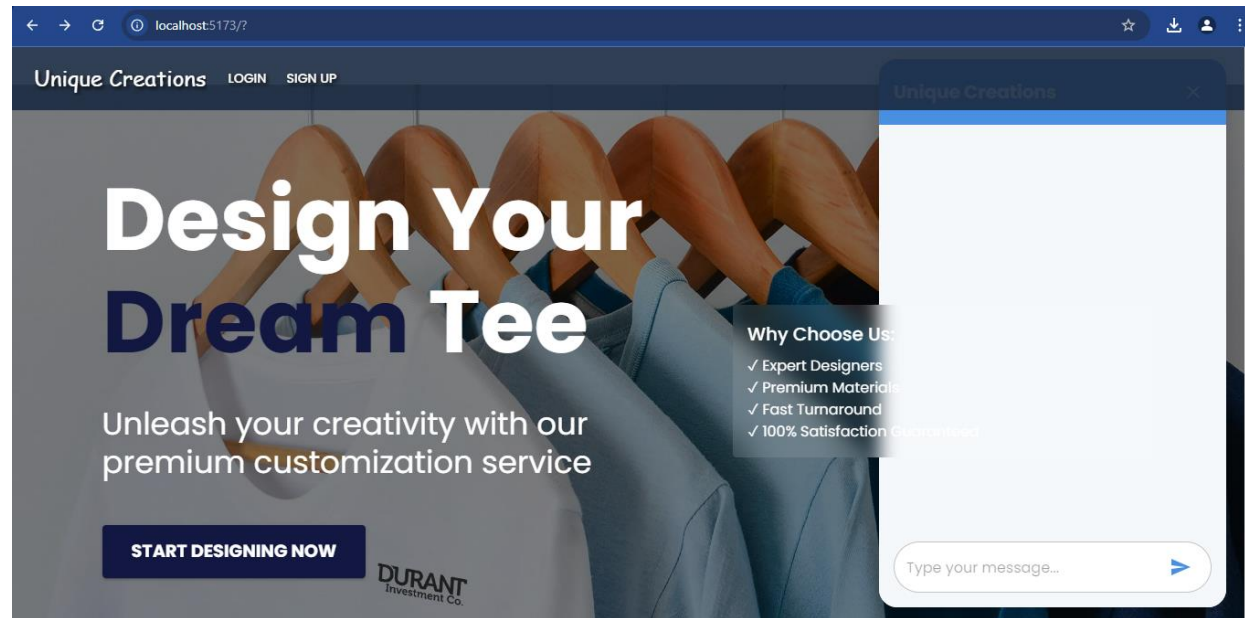

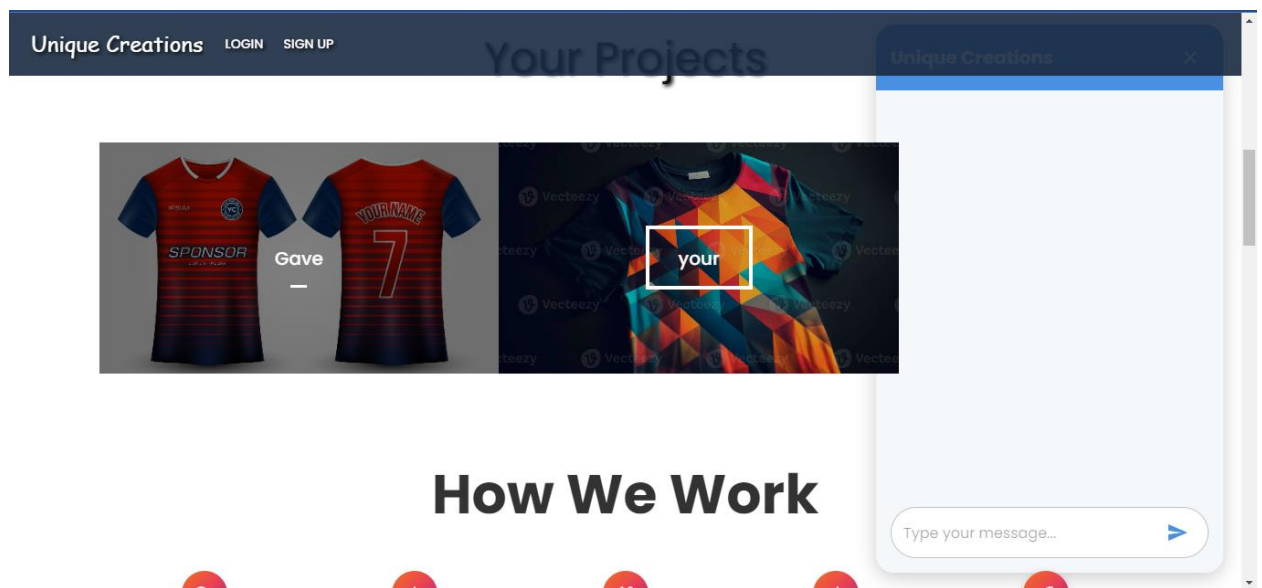

Figure 7: Hero texts overlapping with chatbot.

Figure 8: Overlapping 2
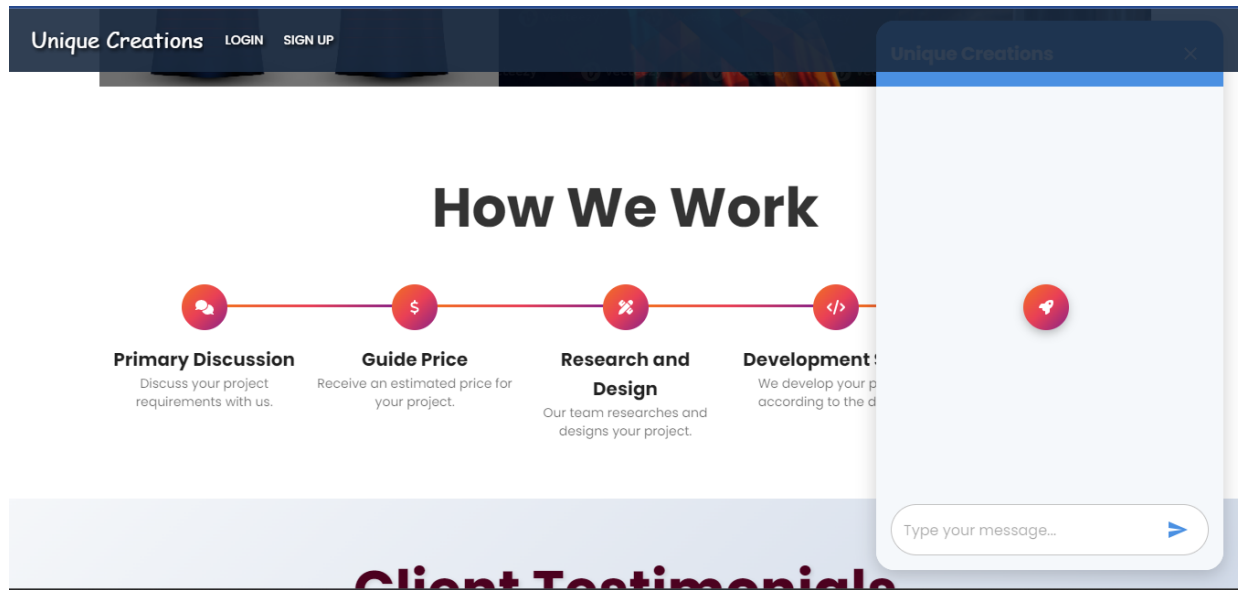

Figure 9: Overlapping 3

- Navigation bar is missing in the following pages.

  - Login

  - Signup

  - Voting

  - Add review

  - View testimonials

  - Cart

- Overall Navigation bar profile icon doesn't show the user's profile.

2. Voting

- The voting system allows design creators to create multiple apparel designs (e.g., different T-shirt models with various designs and colors) and share these designs with their community members for voting. Design creators can generate a unique link to share for voting, set an end time for the voting period, and manage visibility settings to control whether vote counts are visible to everyone or only to the design creator. Additionally, design creators have the ability to delete a voting session if needed.
- Every users' profile should have a separate section for voting.

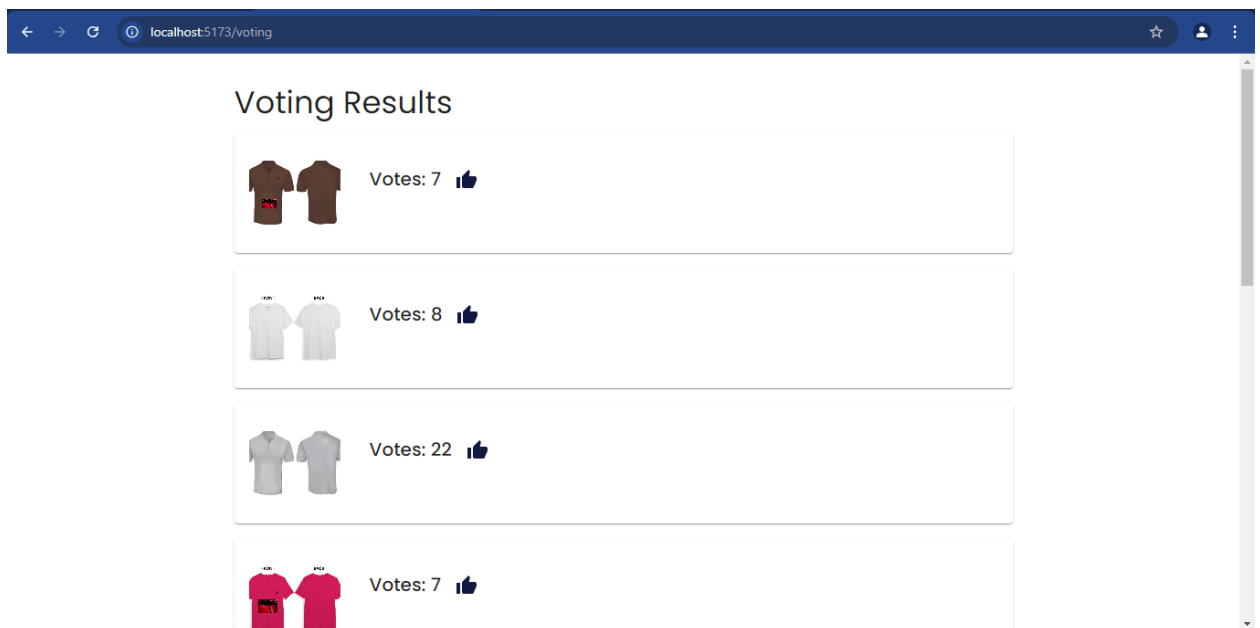

Figure 10: Voting panel without login. Not every user is allowed to see all the users'

designs to ensure privacy which have to be changed.

- Own project display.

- When clicking the "your projects" in the home page, to see the login user's project it redirects to Voting page.

- Profile icon in navigation bar→ projects→ "http://localhost:5173/myproject" **X**

- While **resetting the password**,
    - Eye icon to see and hide the password would be good,
    - No successful/Error message to show the password has been updated.

- After **updating the profile settings**, it would be better to have a successful/Error message about the action.

- ## Customization Panel
- It would be good if the dynamic price changing element come in the right top corner.
- Undo, redo, auto save and naming the project are missing. - Navigation bar
- I tried to design but after going back the project is not saved.
- Can you place the save design button also in the top to see easily.
- Bottoms don't have the Conform button.
-

Figure 11: Designs are movable and it would be great if it have a permanent container for it self.
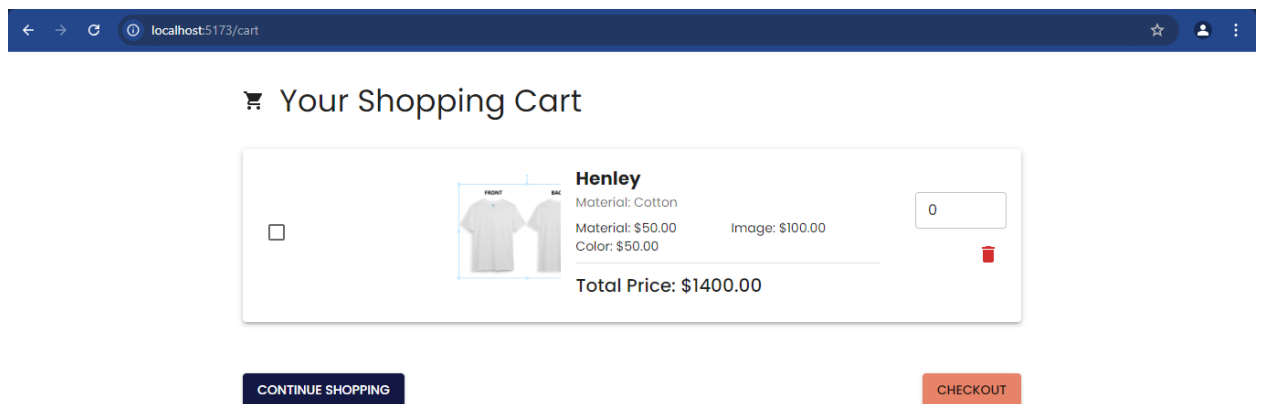

-

Figure 12: i couldn't able to edit again after adding to cart.

- Admin Panel
  - In navigation bar admin profile is not shown. It's like random "U".
  - In the navigation bar, there is no page for "Profile management" which is mentioned in the profile icon drop down list.
 - Adding pagination for the admin profile pages would be user friendly.
  -

Figure 13: Alignment of the element.
